

YaP MMO Quest Compendium

100 quests linking kits, skills, warps, bosses, and ranks — shipped in `yap-mmo-content` and loaded by `yap-npcs`.

Regenerate:

```
python3 scripts/content/generate-mmo-quest-compendium.py
./gradle installGameplayDefaults
```

Progression flow (intro)

Quest	Objective	Reward
First Steps (<code>t1_first_steps</code>)	Talk to Mayor / Quest Board NPC at spawn	50 Attack XP, 5 Bread, unlock <code>/kit adventurer</code>
First Steps in Mining (<code>t1_mining_five</code>)	Reach Mining Level 5	Iron pick, unlock <code>mines</code> teleport
Goblin Menace (<code>t2_goblin_menace</code>)	Kill 20 Zombies (Goblin Scout stand-ins)	800 Attack XP, Scout vest, 100 gold

Tiers

File	Tier	Count	Focus
<code>compendium_tier_01.yml</code>	1 Adventurer (1-10)	15	Survival, gather, first combat, kit + mines unlock
<code>compendium_tier_02.yml</code>	2 Rising Hero (11-25)	15	Nether, skills 15, early YaP bosses
<code>compendium_tier_03.yml</code>	3 Elite Guardian (26-50)	15	Diamonds, Goblin King, guild, mid bosses
<code>compendium_tier_04.yml</code>	4 Master Craftsman (51-75)	15	Skill 50s, Dragon/Wither/Warden, economy
<code>compendium_tier_05.yml</code>	5 Legendary (76-90)	15	Mythic YaP bosses, magic 50+, cosmetics
<code>compendium_tier_06.yml</code>	6 Ascended (91-100+)	15	Prestige proxies, titles, endgame
<code>compendium_ultimate.yml</code>	Completionist	10	Capstone challenges

All quests form **one linear chain** via `requires` (finish previous to turn in next).

YaP adaptations (vs AuraSkills / MythicMobs design)

Design intent	YaP implementation
AuraSkills levels	YaPSkills (<code>SKILL_LEVEL</code>)
MythicMobs Goblin Scout	<code>KILL_MOB</code> Zombie (spawn pack near spawn)
MythicBoss Goblin King / Hydra / Void Lord	YaP bosses <code>goblin_king</code> , <code>swamp_hydra</code> , <code>void_shade</code> , ...
<code>/kit adventurer</code> unlock	<code>kit_unlock:adventurer</code> → <code>yapdata.kit.adventurer</code>
<code>/warp mines</code>	<code>teleport_unlock:mines</code> (+ <code>areas.yml</code> <code>mines</code>)
VIP trial / titles	<code>group:</code> / <code>permission:yap.mmo.*</code> via YaPPerms
Talk to Mayor	Empty <code>objectives: []</code> — right-click NPC with quest bound
Playtime / economy / place-blocks	Honest proxies (skill levels, craft counts, gather) noted in descriptions

Operator setup

1. Install GAMEPLAY tier (`gradle installGameplayDefaults` or `-PyapGameplay=true`).
2. Ensure MariaDB + YaPDB for quest progress.
3. Place NPCs and bind quests:

```
/npc create mayor
/npc setquest mayor t1_first_steps
# later: guild clerk → t3_guild, quest master → t6_quest_master, legend → ult_completionist
```

4. Spawn Goblin Scout stand-ins (zombies) just outside spawn for `t2_goblin_menace` .
5. Place YaP bosses via `/yapmmo` / boss YAML coords.
6. Add YaPPerms groups `vip` , `guardian` , `veteran` , `ascended` , `dragon_slayer` , `omni_god` , `immortal` as needed for `group:` rewards.

Player commands

Command	What
<code>/quests list</code>	Known quest ids
<code>/quests progress <id></code>	Objective progress
Right-click quest NPC	Turn in when complete

Reward types

Prefix	Example
<code>skill_xp:</code>	<code>skill_xp:mining:500</code>
<code>item:</code>	<code>item:IRON_PICKAXE:1</code>
<code>money:</code>	<code>money:100</code>
<code>kit_unlock:</code>	<code>kit_unlock:adventurer</code>
<code>teleport_unlock:</code>	<code>teleport_unlock:mines</code>
<code>permission:</code>	<code>permission:yap.mmo.title.guardian</code>
<code>group:</code>	<code>group:vip</code>
<code>unlock_recipe:</code>	<code>unlock_recipe:iron_sword</code>
<i>(raw)</i>	any console command with <code>{player}</code>
