

YaP MMO content baseline

Shipped YAML packs for a themed survival / MMO server on **YaP-Folia**.

Content	Bare minimum	Baseline pack
Quests	20-100	100 (7 compendium files)
Bosses	20	20 (4 boss packs)
Recipes	75-200	151 (smithing, cooking, crafting, herblore + extended packs)

Locations

Type	Path
Quests	<code>plugins/YaPMmoContent/quests/*.yaml</code> (also read by YaPNpcs)
Bosses	<code>plugins/YaPMmoContent/bosses/*.yaml</code>
Recipes	<code>plugins/YaPCrafting/recipes/*.yaml</code>
Areas	<code>plugins/YaPMmoContent/areas.yaml</code> (<code>mining_guild</code> , <code>fishing_spot</code> , <code>mines</code>)

Quest compendium (100)

Full design + operator setup: [MMO_QUESTS.md](#).

File	Tier
<code>compendium_tier_01.yaml</code>	Adventurer's Beginning (15)
<code>compendium_tier_02.yaml</code>	Rising Hero (15)
<code>compendium_tier_03.yaml</code>	Elite Guardian (15)
<code>compendium_tier_04.yaml</code>	Master Craftsman (15)
<code>compendium_tier_05.yaml</code>	Legendary Hero (15)
<code>compendium_tier_06.yaml</code>	Ascended One (15)
<code>compendium_ultimate.yaml</code>	Completionist (10)

Intro flow

1. **First Steps** — talk to Mayor NPC → unlock `/kit adventurer`
2. **First Steps in Mining** — Mining 5 → unlock `mines` teleport
3. **Goblin Menace** — kill 20 scouts (zombies) outside spawn → gold + gear

```
python3 scripts/content/generate-mmo-quest-compendium.py
./gradle installGameplayDefaults
```

Regenerate recipes / bosses

```
python3 scripts/content/generate-mmo-baseline-pack.py # recipes + bosses (does not replace
quests)
./gradle installGameplayDefaults
gradle :crafting-plugin:test :mmo-content-plugin:shadowJar
```

Quests are owned by `generate-mmo-quest-compendium.py`. Do not reintroduce the old 35-quest chain files.

Bosses (20)

Split across `bosses/pack_01.yml ... pack_04.yml`. Adjust coordinates in YAML for your world or use `/yapmmo` admin tools after placing arenas.

Recipes (151)

File	Theme
<code>smithing.yml</code> / <code>smithing_extended.yml</code>	Bars, armor, tools
<code>cooking.yml</code> / <code>cooking_extended.yml</code>	Food, potions-lite
<code>crafting.yml</code> / <code>crafting_extended.yml</code>	Utility blocks, gear
<code>herblore.yml</code>	Herblore-style mixes
