

YaP MMO Quest Compendium

100 quests linking kits, skills, warps, bosses, and ranks — shipped in `yap-mmo-content` and loaded by `yap-npcs`.

Validate / document objective types:

```
python3 scripts/content/generate-mmo-quest-compendium.py
python3 scripts/content/generate-mmo-quest-compendium.py --list-types
./gradlew installGameplayDefaults
```

Progression flow (intro)

Quest	Objective	Reward
First Steps (<code>t1_first_steps</code>)	TALK Mayor / Quest Board NPC (<code>npc-id: mayor</code>)	50 Attack XP, 5 Bread, unlock <code>/kit adventurer</code>
First Steps in Mining (<code>t1_mining_five</code>)	Reach Mining Level 5	Iron pick, unlock <code>mines</code> teleport
Goblin Menace (<code>t2_goblin_menace</code>)	Kill 20 Zombies (documented Goblin Scout stand-in)	800 Attack XP, Scout vest, 100 gold

Tiers

File	Tier	Count	Focus
<code>compendium_tier_01.yml</code>	1 Adventurer (1-10)	15	Survival, gather, first combat, kit + mines unlock
<code>compendium_tier_02.yml</code>	2 Rising Hero (11-25)	15	Nether, skills 15, early YaP bosses
<code>compendium_tier_03.yml</code>	3 Elite Guardian (26-50)	15	Diamonds, Goblin King, guild, mid bosses
<code>compendium_tier_04.yml</code>	4 Master Craftsman (51-75)	15	Skill 50s, Dragon/Wither/Warden, economy balance, place-blocks
<code>compendium_tier_05.yml</code>	5 Legendary (76-90)	15	Enchant / anvil use, mythic YaP bosses, cosmetics
<code>compendium_tier_06.yml</code>	6 Ascended (91-100+)	15	Playtime, TALK NPCs, economy earn, endgame
<code>compendium_ultimate.yml</code>	Completionist	10	Capstone challenges

All quests form **one linear chain** via `requires` (finish previous to turn in next).

Objective types

Type	Progress	YAML keys
<code>BREAK_BLOCK</code> / <code>GATHER</code>	Increment on break / fish catch	<code>material</code> , <code>amount</code>
<code>KILL_MOB</code>	Increment on kill	<code>entity</code> , <code>amount</code>
<code>KILL_BOSS</code>	Increment on YaP boss kill	<code>boss-id</code> , <code>amount</code>
<code>SKILL_LEVEL</code>	Snapshot from YaPSkills	<code>skill</code> , <code>level</code>
<code>CRAFT_ITEM</code>	Increment on YaP craft	<code>recipe</code> , <code>amount</code>
<code>PLAYTIME</code>	Snapshot from YaPPlayerData <code>play_minutes</code>	<code>minutes</code>
<code>ECONOMY_BALANCE</code>	Snapshot from balance	<code>min-balance</code>
<code>ECONOMY_EARN</code>	Increment on deposits (<code>PlayerBalanceChangeEvent</code>)	<code>amount</code>
<code>PLACE_BLOCKS</code>	Increment on place	<code>material</code> (optional), <code>amount</code>
<code>ENCHANT</code>	Increment on enchanting table use	<code>amount</code>
<code>ANVIL_USE</code>	Increment when taking anvil result	<code>amount</code>
<code>TALK</code>	Increment when interacting with matching NPC	<code>npc-id</code> , <code>amount</code>

YaP adaptations (vs AuraSkills / MythicMobs design)

Design intent	YaP implementation
AuraSkills levels	YaPSkills (<code>SKILL_LEVEL</code>)
MythicMobs Goblin Scout	<code>KILL_MOB</code> Zombie — documented stand-in (spawn pack near spawn)
MythicBoss Goblin King / Hydra / Void Lord	YaP bosses <code>goblin_king</code> , <code>swamp_hydra</code> , <code>void_shade</code> (Void Lord stand-in)
<code>/kit adventurer</code> unlock	<code>kit_unlock:adventurer</code> → <code>yapdata.kit.adventurer</code>
<code>/warp mines</code>	<code>teleport_unlock:mines</code> (+ <code>areas.yml</code> <code>mines</code>)
VIP trial / titles	<code>group:</code> / <code>permission:yap.mmo.*</code> via YaPPerms
Talk to Mayor (intro)	Empty <code>objectives: []</code> — right-click NPC with quest bound

Design intent	YaP implementation
Talk to Quest Master / Legend	TALK + npc-id: quest_master / legend
Playtime	PLAYTIME + YaPPlayerData join/quit minutes
Economy holdings / earnings	ECONOMY_BALANCE / ECONOMY_EARN
Place blocks / enchant / anvil	PLACE_BLOCKS / ENCHANT / ANVIL_USE
Agility (not shipped)	Defence skill — documented stand-in on t5_speedster

There are **no silent proxies** in tier 4-6 / ultimate packs. Remaining zombie/goblin and skill stand-ins are named in quest descriptions and this doc.

Operator setup

1. Install GAMEPLAY tier (gradle installGameplayDefaults or -PyapGameplay=true).
2. Ensure MariaDB + YaPDB for quest progress + playerdata playtime.
3. Place NPCs and bind quests:

```

/npc create mayor
/npc setquest mayor t1_first_steps
/npc create quest_master
/npc setquest quest_master t6_quest_master
/npc create legend
/npc setquest legend ult_completionist
# later: guild clerk → t3_guild

```

4. Spawn Goblin Scout stand-ins (zombies) just outside spawn for t2_goblin_menace .
5. Place YaP bosses via /yapmmo / boss YAML coords.
6. Add YaPPerms groups vip , guardian , veteran , ascended , dragon_slayer , omni_god , immortal as needed for group: rewards.

Player commands

Command	What
/quests list	Known quest ids
/quests progress <id>	Objective progress
Right-click quest NPC	Turn in when complete; also advances TALK objectives

Reward types

Prefix	Example
skill_xp:	skill_xp:mining:500
item:	item:IRON_PICKAXE:1
money:	money:100
kit_unlock:	kit_unlock:adventurer
teleport_unlock:	teleport_unlock:mines
permission:	permission:yap.mmo.title.guardian
group:	group:vip
unlock_recipe:	unlock_recipe:iron_sword
(raw)	any console command with {player}
